

## Agilence Analytics Plus

### Loss Prevention on Autopilot

**Agilence Analytics Plus** delivers a complete loss prevention solution designed for retail, supermarket, and restaurant businesses that may lack the in-house resources to fully manage loss prevention. This service combines the powerful Agilence Analytics software with a team of seasoned consulting professionals who act as your extended loss prevention team.

From the initial setup to ongoing monitoring and reporting, our service manages it all. We integrate various data sources including your POS, products, locations, online interactions, HR processes, and loyalty programs into a fully managed exception-based reporting system. This alleviates the burdens of system administration, analysis, and monitoring for your team.

But we offer more than just software management. We proactively identify suspicious activities and provide expert advice, ensuring that every operational decision is data-driven and strategically sound. By working closely with your team, we gain an understanding of your specific business needs and implement customized reporting. This makes us a seamless extension of your team, offering real-time alerts, customizable reports, and continuous updates.

Analytics Plus delivers security, efficiency, and peace of mind, allowing you to focus on what matters most: strategic initiatives that drive success and improve your competitive standing.

## Why Agilence Analytics Plus?

- ✓ **Turnkey Solution for Asset Protection:** Pre-configured solution with proven loss prevention strategies, simplifying asset protection and enhancing operational effectiveness.
- ✓ **Comprehensive Monitoring and Support:** Dedicated consulting services for ongoing optimization and proactive support.
- ✓ **Advanced Loss Prevention:** Detailed transactional data analysis to detect and mitigate sources of shrinkage due to theft, fraud, or errors, enhancing the security of assets and preserving profits.
- ✓ **Data-Driven Decision Making:** Expert-driven insights empower users to make informed operational decisions, boosting confidence and ensuring all strategies are aligned with business goals.
- ✓ **Strategic Optimization:** Make more time for core competencies, marketplace competitiveness, and strategic growth by outsourcing your loss prevention data analysis.
